Routes to the Omineca Mines. The discovery of extraordinarily rich gold mines on Germansen Creek, Omineca, very naturally excites inquiry as to which is the best route to reach the new diggings. Now, although we do not undertake to say which is the best route, yet, in answer to a very general inquiry, we deem the matter of such importance as to induce us to lay before our readers an account of the different routes that are taken to reach Germansen creek. There are only two main routes-one by the way of New Westminster, Yale, Quesnelle, and the Upper Fraser river or the Telegraph trail to Stuart's Lake, and thence to Tatlah Landing; and the other by way of Skeena river to Tatlah Landing, and thence to the One route may be called the Fraser river route; the other the Coast

Both of these routes form a time. Buy your coal of Frain. route. Both of these routes form a unction at Tatlah Landing, which is 100 miles from the Germansen Creek diggings. The last 100 miles is a part of both routes to the mines. On the Fraser river route, as far as the Mouth of Quesnelle, there is no difficulty whatever in moving either passengers or freight; but from that point upwards the difficulties will be met. At Quesnelle, the miner will be about 508 miles from Victoria, which is made up as follows : Victoria to New house formerly occupied by Mr McNiff, Broad Westminster, 90 miles; New Westmin- street. ster to Yale, 90 miles—both by steamers Soda Creek, by land, 268 miles; from Soda creek to Quesnelle, 60 miles, by steamboat-or a total of 508 miles, or thereabouts. The route from Quesnelle to Tatlah Landing, by water, takes the following course: From Quesnelle, in boats, up Fraser and Stuart rivers to Stuart's Lake, 240 miles ; up that lake to Tatchie river, 25 miles ; up Tatchie river to Tremblay lake, 28 miles; across Tremblay, 12 miles; up Middle river, that connects Tremblay and Tatlah lakes, 28 miles; thence across Tatlah lake to Tatlah Landing, 55 miles. Hence, the total distance from Quesnelle to Tatlah Landing is 388 miles; all by water. This will make the whole distance from Victoria to Germansen creek 996 miles. Of that distance there will be 678 miles by water and 318 miles by land. The land travel is, however, increased by the addition of 205 miles, when Fraser river is crossed at Quesnelle and the Telegraph trail is used. For instance, from Quesnelle to Stony creek, 140 miles; to Fraser lake, 25 miles; and thence to Stuart's lake, 40 miles,-a total of 205 miles. This 205 miles of land travel saves 240 miles Stuart's lake; and, consequently, re. duces the whole distance from Victoria to Germansen diggings to nine hundred and eixty-one miles. The Telegraph trail is the only route by which provisions have been sent into Omineca the present The very great length of the Fraser river route has naturally caused the Skeena route to be travelled, and in fact to be looked upon as the only route CARRIAGES HARNESS. to Germansen creek that will be travelled when a good trail is constructed from Silverware, the Skeens to Hogem, on Ominecs river. This will appear to be a positive certainty when we contrast the two competing routes; and in order to make the contrast, let us examine the Skeens route. From Victoria to the mouth of the Skeena is coasting by steam, distance say of 400 miles. It may be something more ; but the navigation is always open and always easy, and consequently a few miles more would not make much difference in the time occupied in steaming. From the mouth of the Skeena, at Woodrock's Landing, to Ak-kwil-gate, at the Forks of the Skeens, the distance is estimated by some at 200 miles, by others at 160 miles. If we put the distance down at 180 miles it will be pretty nearly cor-rect. It is said that 80 miles of this river can be navigated by steamboats, and, with the exception of a canyon at the Upper Landing, 80 miles from the mouth, INSURANCE, the river is said to be navigable for steamboats up to Ak-kwil gate, but at present canoes alone are used on the river. From the latter place there is a trail erossing to Babine Lake, 60 miles. From there Babine is ascended southerly, in canoes, to Fort Babine. From the Fort there is a portage of 30 miles to Tatlah Lake. From Tatlah Lake to Tatlah Landing, by water, is 80 miles. From Tatlah Landing, by trail, to Hogem, on Omineca river, 50 miles; and from Hogem to Germansen creek, by cance, down the Omineca, 50 miles. Making the total distance from the mouth of the Skeens to Germansen creek to be 430 miles, of which 290 miles will be by water, and only 140 miles by land; and the distance from Victoria to Germansen creek, by the coast route, will be, say, 830 miles-or 100 or 166 miles shorter than via Fraser river. But it is not in the fact of the Skeens route being shorter than the Fraser that its advantage con-sists; but simply because the whole of the land route put together is only 140 miles,—all the rest being made in steam-boats or in canoes. Besides that it is maintained that a trail can be cut from Ak-kwil-gate to Hogem, on the Omineca, and thus have only one portage of 140 miles between Victoria and Germansen creek. In the upper country there is no doubt entertained but the Skeena is certain to be theroute to the new mines, as as a good soon trail is opened from Ak-

PRESONAL.—Whilst deploring the spirit which induces some writers to bring their individual affairs under the notice of a public to whom they have but little interest, A. B. Gray takes pleasure in calling attention to the receipt of his annual supply of Fall Dry Goods, specially selected for this market, just received. An inspection of his stock is invited, which will be found to comprise all the usual staples of his branch of business, together with a varied assortment of the most recent Fancy Novelties.—Government Street, December, 1870.

We have seen the line paintings and Oliographs to be sold by J. P. Davies & Co., on Tuesday, December 20th. They are well worth the attention of connoisseurs. DR. CHING FUN—A CARD—ETITOR STANDARD:—Through the medium of your paper I want to state the very great good that has been done me by Dr. Ching Fun of this city, nxet door Kwong Lee & Co. For 24 years I suffered with neuralgia on the brain, which baffled the skull of three first-class American physicians. Latterly bronchitis attacked myright lung, and my eyes became awfully inflamed. Despiring of ever b sing cured I placed myself as a last resort in the hands of Dr. Ching Fun, and after five months treatment I am a well man and feel that I cannot sound the eminent Chinese gentleman's praises 'too loudly, so that all my countrymen similarly affected may visit him and find reliet, Respectfully,

MAGIC SOAP

Directions for Using Robinson's Magic Soap Hours, of Five or Six Dozen Preces

1. Cut up fine a har of the Soap, and put one-ha of it into your boiler with sufficient water to cover your white clothes to be washed, and let the Soap dissolve; then put your clothes in, stirring them, and let them just cone to a boil; then pour out clothes and water into a tub and let them seak twenty or thi ty minutes, stirring them round in the tub occasionally to loosen the dirt. Such articles as collars, wristbands or any ar icle very dirty, should be rubbed through the hands a little while soaking in order to thoroughly loosen the dirt before boiling.

2. While your clothes are soaking put the other half of your cut Soap into your boiler, with sufficient clean water to boil, and let it be heating. After your clothes have soaked wring them out well and put into your boiling water, and let boil from 5 to 10 minutes; then rinse, blue and hang out to dry. If the above directions are followed, we will guarantee your clothes clean and white.

3. For your colored and woollen clothes one the second

white.

3. For your colored and woollen clothes use the same water you soaked and boil your white clothes with, only heating it up again, and pour it over your colored and woollen clothes, and let soak the same as your white clothes, also rubbing them through your hands while soaking, if very dirty. Then rinse in clear water, warm a your hands will bear, and you will thus accomplish a large washing in two hours.

By cutting up a bar of this Soap into two gallons water, and let boil until thoroughly dissolved, and then leave to cool, you will have two gallons of beautiful SOFT SOAP, as good as Common Soap for general house pur poses.
